

# BARD

## The US-Israel Binational Agricultural Research and Development Fund

### Funding Opportunities

- **BARD Research Grant Program:**  
Funds projects conducted cooperatively by US and Israeli scientists. Covers all phases of agricultural R&D including strategic or applied research.  
Award duration: 3 years  
Next submission date: September 13, 2017
- **Postdoctoral Fellowship Program:**  
Funds postdoctoral fellowships for US or Israeli citizens to perform agricultural research with established scientists in the other country. Recipients travel to Israel to carry out their research.  
Award duration: 1-2 years  
Next submission date: January 15, 2018
- **Senior Research Fellowship Program:**  
The program promotes joint agricultural research between established scientists from the US and their Israeli hosts.  
Award duration: 2-12 months  
Next submission date: January 15, 2018
- **Graduate Fellowship Student Program:**  
The program enables Ph.D. students in one country (US or Israel) to travel to the other country to acquire new skills and techniques in their field of study.  
Award duration: 3-6 months  
Next submission date: January 15, 2018
- **Workshop:**  
Funds workshops whose purpose is to identify research needs and to promote increased contact between scientists throughout the world in areas related to the binational and agricultural interests of the US and Israel.  
Next submission date: January 15, 2018
